FUWAD TALUKDER

Frontend Developer | Creative Web Engineer

Phone: +880 1302335156 | **Email:** fuwadtalukderdev@gmail.com **Location:** Dhaka Division, Bangladesh
Portfolio: fuwadtalukder.vercel.app | **GitHub:** github.com/taffuwad
LinkedIn: linkedin.com/in/fuwad-talukder | **Twitter/X:** x.com/fuwad_talukder

PROFESSIONAL SUMMARY

Detail-oriented and creative Frontend Developer with proven expertise in building responsive, high-performance web applications and immersive digital experiences. Skilled in modern JavaScript (ES6+), React.js, Tailwind CSS, and cutting-edge animation libraries including GSAP, Shery.js, and Lenis. Adept at translating creative concepts and wireframes into clean, scalable component code with fluid micro-interactions and smooth user journeys.

TECHNICAL SKILLS

- **Core Technologies:** JavaScript (ES6+), HTML5, CSS3
- **Frameworks & Libraries:** React.js, Next.js, Tailwind CSS
- **Creative Motion & Effects:** GSAP (ScrollTrigger, SplitText), Shery.js, Lenis Smooth Scroll, Swiper.js
- **Development Tools:** Git, GitHub, Vite, Vercel, Netlify, Webpack, Figma
- **Core Competencies:** Responsive Web Design, Component-Based UI, AI-Assisted Development (Vibe Coding), Cross-Browser Compatibility, Performance Optimization, RESTful APIs

FEATURED PROJECTS

Maison Clo - Modern E-Commerce Storefront

Live Demo: maisonclo.netlify.app | **Tech Stack:** JavaScript (ES6+), React, Tailwind CSS, Responsive UI

Description: A minimalist, aesthetic e-commerce web platform engineered for seamless product discovery and optimal user flow.

- Developed modular, reusable catalog and product grid components with dynamic view switching.
- Designed an accessible, mobile-first interface optimized for rapid load times and high conversion rates.

Honey Dinner - Interactive Fine Dining Experience

Live Demo: restaurent-lac-theta.vercel.app | **Tech Stack:** JavaScript (ES6+), Shery.js, HTML5, CSS3, Vercel

Description: An engaging culinary landing page showcasing menu collections, chef specials, and table reservation journeys.

- Built a custom percentage-based preloader and interactive visual effects using Shery.js and CSS animations.
- Structured an intuitive, image-rich food showcase with smooth transitions and full cross-device responsiveness.

Loacoon Studio - 3D Interactive Web Experience (Vibe Coded)

Live Demo: loacoon.netlify.app | **Tech Stack:** JavaScript (ES6+), Three.js, GSAP, CSS3, Vite

Description: An immersive 3D digital studio experience built using modern generative AI tooling (vibe coding) and creative web engineering.

- Leveraged prompt-engineered rapid prototyping to integrate real-time 3D canvas models and lighting.
- Integrated fluid pointer physics and seamless camera transitions maintaining 60 FPS performance.

SouthOscer - Premium Fitness & Gym Club

Live Demo: new-gym-demo.vercel.app | **Tech Stack:** JavaScript (ES6+), Lenis Smooth Scroll, Swiper.js, CSS3, Vercel

Description: A bold, high-energy web application created for a modern fitness club featuring class schedules and membership plans.

- Integrated Lenis for momentum-based inertial scrolling and Swiper.js for interactive program carousels.
- Implemented animated typography, custom SVG loaders, and responsive layout hierarchies tailored for mobile and desktop.

EDUCATION

Rajbari Government College - Dhaka Division, Bangladesh
Higher Secondary Certificate (HSC) / Undergraduate Studies
Status: Currently Enrolled (In Progress)

LANGUAGES

English: Professional Working Proficiency
Bengali: Native / Bilingual Proficiency
Hindi: Full Professional Fluency (Spoken & Conversational)
